

Cisco Digital Learning Library At-a-Glance

Train Your Workforce with Flexible, Interactive Cisco Digital Learning Library

Now there's an easy, effective way for your workforce to get training on the Cisco® technologies they need—with Cisco Digital Learning Library. These multi-modal training courses include HD instructor video with searchable transcript and subtitles, plus a complete Student Guide textbook. This helps ensure multiple learning techniques are covered, so students can learn in the way they prefer.

Whether your workforce needs to prepare for Cisco certification or gain an overview of the latest technologies, Cisco Digital Learning Library offers highly effective education and retention—at each student's pace. From routing and switching to security, from collaboration to the design, your workforce can get up to speed on Cisco technologies, anytime and anywhere.

As Effective as Classroom Training—Without the Classroom

With Cisco Digital Learning Library, your workforce can learn from their desktop or laptop, through a single, integrated browser window. An instructor provides context at the beginning of each section, using a whiteboard, video, and animations. Since learning is modular and the course material is broken up into small sections, each student can learn whenever they have an extra few minutes.

Helping Students Get the Most from Every Minute

Cisco Digital Learning Library includes Discovery Labs, which introduce new concepts by giving students interactive, hands-on assignments. Graded challenge assessments at the end of every section offer students feedback on what they've learned, and allow them to go back and review areas as often as they need to. Hints and guidance are available for support as needed. And a separate manager dashboard provides analytics, so you can monitor individual and team progress, to easily track skills mastery.

Other instructional features that enhance and improve learning include:

- Topic videos, including slides and a whiteboard to illustrate important fundamentals from a specific topic or subtopic
- Search, which lets students go through all the instruction guides, as well as transcripts of videos

Benefits

- **Effective:** Covers multiple learning techniques, with HD instructor-led video, searchable transcripts, and full Student Guide textbook
- **Interactive:** Offers engaging Discovery Labs for hands-on learning, plus graded challenge assignments to measure progress
- **Flexible:** Increases learning convenience, as students can work at their own pace, anytime, anywhere
- **Integrated:** Provides everything in one place; no multiple systems to log into
- **Unrivaled:** Gives you the benefit of Cisco expertise, with years of unmatched learning and certification experience

- Lab recordings, which let students see how other students performed in labs, to improve peer learning
- Labs-at-a-glance, showing each student's complete and incomplete labs, so they can track progress and make improvements
- Compatibility with tablets, so students can learn wherever they go, with their progress saved for them
- Synchronized learning on multiple devices, so students can switch between a laptop and a tablet without losing their place
- Gamification, with achievement badges and medals awarded for mastering content and study techniques
- Leaderboard, indicating how the top 10 students rank, to add a friendly, competitive element
- Bookmarking, which lets students flag and add notes to important concepts or areas they want to review
- Glossary that can be easily browsed, with important terms highlighted
- Social media links, so students can share their progress on Facebook, LinkedIn, or Twitter
- Certificate of completion awarded to all students who finish each course

At Cisco, we provide e-learning for every requirement, from individual courses to technology certification track offerings. And since we created the technical certification tracks and have years of experience and expertise in interactive learning, we've combined everything we know that works into these offerings. Give your workforce the comprehensive, convenient training they want—with Cisco Digital Learning Library.
