

Barracuda Training

Learn how to improve performance, availability, and security of distributed networks and how to fully protect your critical applications! We offer original Barracuda training.

NextGen Firewall F – Foundation (NGF01)

ID NGF01 Duration 3 Days

Course Content

- Introducing the NextGen Firewall
- On-Premises Deployment
- Basic Configuration Tasks
- Firewall Policies
- Introduction to NextGen Firewall F Features
- NextGen Control Center
- Virtual Private Networks
- Introduction to Traffic Intelligence
- Introduction to Remote Access
- Logging, Reporting, Statistics
- System Maintenance
- High Availability
- IPv6 Configuration

NextGen Firewall F – Application Control (NGF0301)

ID NGF0301 Duration 1 Day

Prerequisites

- NextGen Firewall F – Foundation (NGF01) or comparable knowledge

Course Content

- Application Control
- DNS Caching and Interception
- Spyware and Botnet Protection
- Traffic Shaping (QoS)

NextGen Firewall F – Remote Access (NGF0601)

ID NGF0601 Duration 1 Day

Prerequisites

- NextGen Firewall F – Foundation (NGF01) or comparable knowledge

Course Content

- SSL-VPN and CudaLaunch
- VPN Client Access
- NextGen Firewall F Remote Access Configuration

NextGen Firewall F – Advanced WAN Technologies (NGF0401)

ID NGF0401 Duration 1 ½ Days

Prerequisites

- NextGen Firewall F – Foundation (NGF01) or comparable knowledge

Course Content

- Advanced Virtual Private Networks
- Traffic Intelligence Basics
- Traffic Intelligence SD-WAN Features
- Traffic Shaping (QoS)

NextGen Firewall F – Microsoft Azure (NGF0501)

ID NGF0501 Duration 1 Day

Prerequisites

- NextGen Firewall F – Foundation (NGF01) or comparable knowledge

Course Content

- Use Cases For NextGen Firewall F on Microsoft Azure
- NextGen Firewall F Deployment on Microsoft Azure
- Microsoft Azure Advanced Features

NextGen Firewall F – Amazon Web Services (AWS) (NGF0502)

ID NGF0502 Duration 1 Day

Prerequisites

- NextGen Firewall F – Foundation (NGF01) or comparable knowledge

Course Content

- NextGen Firewall F Deployment on AWS
- NextGen Firewall F Auto Scaling Cluster
- NextGen Firewall F Cold Standby Cluster

Web Application Firewall – Foundation (WAF01)

ID WAF01 Duration 2 Days

Course Content

- Introducing the Barracuda Web Application Firewall
- On-premises Deployment
- Basic Configuration Tasks
- Logging, Monitoring, Reporting
- WAF Services
- Networking
- High Availability
- Security Policies
- URL Policies
- Introduction to Advanced Security Features
- Tuning Security Rules
- Tuning the WAF Configuration
- Application Delivery
- Access Control
