About Fast Lane:

The worldwide Fast Lane Group specializes in high-end technology and business training and consulting. We offer complete, authorized training solutions for leading technology vendors, including Cisco, Microsoft, NetApp, VMware, IBM, Salesforce, Progress and other major technology providers. In addition to those vendor's standard curricula, Fast Lane also develops advanced technology and sales courses. Our technical experts have real-world experience plus access to authorized vendor content and our advanced labs provide a first-rate training experience that raises the bar for training quality.

Fast Lane offers numerous ways for you to get the training you need. Our Instructor-Led Training (ILT), Instructor-Led Online (ILO), and FLEX™ Classroom courses utilize authorized vendor and custom-developed curricula. In addition to our extensive public course schedule, we can provide private group on-site training at your choice of location. We also offer E-Learning solutions to help round out and enhance your experience.

Our vendor-independent consulting services can help with a wide range of issues from conducting preliminary analyses and assessments, to designing future-focused IT solutions. We have a great deal of experience in managing and implementing technology projects for partners and directly for customers. Combining the core services of training and consulting, Fast Lane also conducts on-the-job training and is able to assist customer specialists on site.
