

## Entrenamiento Palo Alto Networks

Como Training Partner Autorizado de Palo Alto Networks, nosotros ofrecemos el currículum oficial de Palo Alto Networks. Los Entrenamientos Palo Alto Networks te brindan el conocimiento que necesitas para conocer acerca de la siguiente generación en firewalls y asegurar mejor tu red y aplicaciones. Los entrenamientos individuales incluyen numerosos laboratorios hands-on.

## Firewall: Essentials – Configuration & Management (210)

ID 210 Duración 5 Días

### Requerimientos

- Familiarity with networking concepts such as routing, switching and IP addressing
- Knowledge of basic security concepts

### Contenido del Curso

- Platforms and Architecture
- Initial Configuration
- Interface Configuration
- Security and NAT Policies
- App-ID™
- Basic Content-ID™
- URL Filtering
- Decryption
- WildFire™
- User-ID™
- GlobalProtect™
- Site-to-site VPNs
- Monitoring and Reporting
- Active / Passive High Availability
- What's Next

## Firewall: Optimizing Firewall Threat Prevention (214)

ID 214 Duración 5 Días

### Requerimientos

- Contents of the course Firewall: Essentials – Configuration & Management (210)
- Familiarity with basic network concepts including routing and IP addressing...

### Contenido del Curso

- The Cyber-Attack Lifecycle
- Blocking Packet- and Protocol-Based Attacks
- Blocking Threats from Known-Bad Sources
- Blocking Threats Using App-ID™

- Blocking Threats Using Custom Signatures
- Creating Custom Threat Signatures
- Blocking Threats in Encrypted Traffic
- Blocking Threats in Allowed Traffic
- Authenticating Firewall User Accounts
- Blocking Threats from Phishing and Stolen Credentials
- Viewing Threat and Traffic Information

## Panorama: Managing Firewalls at Scale (220)

ID 220 Duración 3 Días

### Requerimientos

- Contents of the course Firewall: Essentials - Configuration & Management (210)
- Familiarity with Palo Alto's Next-Generation Firewall Management and basic network concepts including routing and IP addressing

- Templates
- Device Groups
- Administrative Accounts
- Log Forwarding and

- Collection
- Aggregated Monitoring and Reporting
- Troubleshooting

### Contenido del Curso

- Panorama Overview
- Initial Configuration
- Adding Firewalls to Panorama
- Panorama High Availability

## Firewall: Troubleshooting (330)

ID 330 Duración 3 Días

### Requerimientos

- Course content Firewall Essentials: Configuration & Management (210)
- Good knowledge of routing and switching, IP addressing and security concepts
- At least six months of hands-on experience with Palo Alto Networks Firewall

- System Services
- Host-Inbound Traffic
- Transit Traffic
- SSL Decryption

- User-ID
- GlobalProtect
- Escalation and RMAs

### Contenido del Curso

- Tools and Resources
- CLI Primer
- Flow Logic
- Packet Captures
- Flow Basic

## Traps: Install, Configure & Manage (281)

ID 281 Duración 2 Días

### Requerimientos

- Experience with Windows system administration
- Familiarity with enterprise security concepts

### Contenido del Curso

- Traps Overview
- Installing Traps
- Malicious Software Overview
- Consoles Overview
- Traps Protection against Exploits

- Traps Protection against Malware
- Prevention Event Exceptions
- Managing Traps
- Traps Forensics
- Basic Troubleshooting Traps

## Traps: Deploy & Optimize (285)

ID 285 Duración 2 Días

### Requerimientos

- Contents of the course Traps: Install, Configure & Manage (281)
- Experience with Windows system administration
- Familiarity with enterprise security concepts

### Contenido del Curso

- Scaling Server Infrastructure
- Scaling Agent Deployment
- ESM Tuning
- Windows Migrations for Traps
- Advanced Traps Forensics
- Advanced Traps Troubleshooting
